

Training Course Outlines: Multi-Story Design Using CSI ETABS and SAFE

1. Basics of structures and loading.
2. Basics about ETABS, and SAFE.
3. 3D model, analysis, and design for regular RC buildings in Duhok city using CSI ETABS and SAFE.
4. Assign different loads (gravity load, lateral wind and seismic).
5. Analysis, and design of RC beams, columns, solid slabs, flat slabs, walls, stairs, footings.
6. Detailing.
