

## Academic Portfolio & C.V.

Diploma 1989 Technical institute of Mosul. B.Sc. 1996, M.Sc. 2000 Baghdad University College of Engineering, surveying engineering department, Ph.D., 2013 Nottingham University (UoD), UK. 2016, Head of the surveying Engineering department at the College of Engineering, University of Duhko. Currently, deputy of the dean at College of engineering, UoD. My knowledge has always been to maintain a strong link between my teaching and scientific research, research-focused teaching. These enable teachings to form my own development research experience and intense interest in the subject. As surveying is a significant part of engineering, the new sensor in surveying efficiency is an interesting field. Research interests lie in General surveying, GPS/GIS integration, Terrestrial and Mobile laser scanning, space Geodesy, and Photogrammetry.

Abdulrahman Farat, Smith, M. J and Kokkas N, The importance of designing targets for improving the accuracy of Mobile Laser Scanning data. Submitted to the Annual Remote Sensing and Photogrammetric Society conference. 2nd- 5 September 2014. Aberystwyth Univeristy, UK.

### **Researches proposed**

1. The use of UAV images (eBeeRTK sensor) and terrestrial images for 3D urban modeling
2. Evaluation of the frequency of the Bridge in Duhok
3. 3D Laser Scanning to preserve the most significant Cultural Heritage Sites in Kurdistan
4. Detection of Multipath error using various GPS receiver ‘s antenna
5. Installation of the GPS base station at the University of Duhok.
6. Estimating the vertical value on the horizontal curves by using law of sphere
7. Minimizing Projection Error on Cadastral Maps by using U.T.M Projection of three meridian zones.

**NB: The evidence for all items are mentioned in this C.V and academic portfolio is available on request.**
